

kindergallery.com
the new online gallery offering the finest art and design for children.

SYDNEY, FEBRUARY 2008

As summer draws to a close, Kindergallery extends a warm welcome to a new range of collages by Melbourne designer Little Birdie. Evocative of contented childhood summers past, this range of hand made vintage fabric collages presents a wonderfully textured series of rural landscapes and engaging characters. Available for the first time and exclusive to Kindergallery, Little Birdie takes her place amongst Kindergallery's irresistible range of original oil paintings, printed works, stretched canvas, felt products, wall decals and more.
