

press release

Shinzi Katoh is a Japanese Zakka artist of worldwide acclaim.

“Zakka” (from the Japanese for “many things”) is the art of seeing the savvy in the ordinary and mundane. Having its origins as a design and fashion phenomenon in Japan, its popularity has spread throughout Asia and the world.

Shinzi Katoh’s designs capture moments of everyday ordinariness, like the slow train labouring over a hill, playing hide and seek in the forest or blowing bubbles. His work goes to the heart of the warmth and delight in such moments. By combining such moments with intriguing textual elements, his work propagates happiness.

No collection of art for young people is complete without Shinzi Katoh’s Zakka prints for children. Kindergallery is proud to offer his extensive range at www.kindergallery.com
